For detailed operating and safety information, please refer to your Owner’s Manual.

**BASIC OPERATION**

**Lock/Unlock doors**

**Remote keyless entry system**

Remote transmitter key (if equipped)

Access key (if equipped)

1. All doors will be locked.
2. The driver’s door will be unlocked. (To unlock all doors, briefly press the button a second time within 5 seconds.)
3. Press the button to open the rear gate.
4. The horn will sound and the hazard warning flashes will flash.

**Keyless access function (if equipped)**

All doors and the rear gate will be locked/unlocked by the following procedures carrying the access key on your person. (The driver should always carry the access key.)

**Side door (front door handles only):**

*Grip the driver’s door handle to unlock the driver’s door. Grip the front passenger’s door handle to unlock all doors and the rear gate.

**Rear gate:**

Press
**Adjust each component**

**Front seat**

Power seat (driver’s seat - if equipped):

1. Forward and backward adjustment
2. Seat cushion angle adjustment
3. Seat height adjustment
4. Seatback reclining adjustment
5. Lumbar support control

Manual seat (if equipped):

1. Forward and backward adjustment
2. Seat height adjustment (driver’s seat only)
3. Seatback reclining adjustment

**Tilt/telescopic steering wheel**

1. Pull the tilt/telescopic lock lever down.
2. Move the steering wheel to the desired level.
3. Pull the lever up to lock the steering wheel in place.

Make sure that the steering wheel is securely locked by moving it up and down, and forward and backward.

**Remote control mirror switch**

Ignition switch must be in **ACC** or **ON** position.

1. Select side to adjust.
2. To adjust the mirror, move the switch in the direction of your desired position.
Start/Stop engine

Push-button ignition switch (if equipped)

To start engine:
STEP1: Carry the access key, and sit in the driver’s seat.
STEP2: Apply the parking brake.
STEP3: Shift the select lever in the P position.
STEP4: Depress the brake pedal until the indicator on the push-button ignition switch turns green.
STEP5: While depressing the brake pedal, press the push-button ignition switch.

To stop engine:
STEP1: Stop the vehicle completely.
STEP2: Move the select lever to the P position.
STEP3: Apply the parking brake.
STEP4: Press the push-button ignition switch.

Change of the power supply (Without starting engine)
Every time the button is pressed without depressing the brake pedal, the power is switched in the sequence of OFF→ACC→ON→OFF.

OFF (Turned off)  ACC (Orange)  ON (Orange)

Ignition switch (if equipped)
The key can be turned from ACC to LOCK only when the select lever is in the P position and the key is pushed in while turning it.

◆ Some functions are available on certain models. ◆ For detailed operating and safety information, please refer to your Owner’s Manual.
**Operate Select lever/Shift lever**

**Continuously variable transmission (if equipped)**

Models with Manual mode

- With the brake pedal depressed, shift while pressing the button in
- Shift while pressing the button in
- Shift without pressing the button

**M = Manual mode:**
With the vehicle either moving or stationary, move the select lever from the **D** position to the **M** position to select the manual mode.

**Shift paddle:**
Gearshifts can be performed using the shift paddle behind the steering wheel.
MAIN PARTS AND OPERATION

- Some functions are available on certain models.
- For detailed operating and safety information, please refer to your Owner’s Manual.

**A Headlight switch/Turn signal lever/Fog light switch**

1. Headlights
2. Headlight flasher, High/Low beam change (dimmer)
3. Turn signal
4. Front fog lights (if equipped)
B Wiper and washer switch

1 Windshield wiper:
To operate the wiper, rotate knob to;
△: Mist (for a single wipe)
○: Off
◇: Intermittent
▼: Low speed
◇: High speed

2 Wiper intermittent time control

3 Windshield washer:
Pull the wiper control lever toward you.

4 Rear window wiper and washer:
To operate the wiper, rotate knob to;
——: Continuous
——: Intermittent
○: Off
坦克: Washer (accompanied by wiper operation)

C Hazard warning flasher switch

To turn on the hazard warning flasher, press the button.
Use the hazard warning flasher when you have to park in emergency conditions.

D Illumination brightness control dial

Turn the dial to adjust the illumination brightness of the instrument panel.
When the control dial is turned fully upward to ● position, the illumination brightness becomes the maximum and the automatic dimming function does not work at all.
E Defroster button/Rear window defogger button

1 Defroster button:
Press the button or turn the dial to defrost the windshield.

2 Rear window defogger button:
Press the button to turn on rear window defogger, outside mirror defogger and windshield wiper deicer (if equipped). The function will automatically shut off after approximately 15 minutes.

F Power rear gate switch (if equipped)

Press and hold

G Memory switch (if equipped)

Your desired rear gate height can be registered.

H Hood lock release knob

Pull

◆ Some functions are available on certain models. ◆ For detailed operating and safety information, please refer to your Owner’s Manual.
I Power window switches

1 Lock switch
2 For driver’s window
3 For front passenger’s window
4 For rear left passenger’s window
5 For rear right passenger’s window

J Power door locking switch

To lock all doors and the rear gate

To unlock all doors and the rear gate

K Seat heater switches (if equipped)

HIGH: Rapid heating
LOW: Normal heating

L Fuel filler lid release lever

This indicates that the fuel filler door (lid) is located on the right side of the vehicle.
Audio control buttons

These buttons allow the driver to control audio functions without taking his/her hands off the steering wheel.

Moonroof switch

1 Open
2 Close

Child safety locks

Located on the edge of each rear door. When the lever is in the LOCK position, the rear door cannot be opened from the inside.

Front seat shoulder belt anchor height

1 To lower:
   Pull the release lever and slide the anchor down.

2 To raise:
   Slide the anchor up.
FUNCTION FOR MORE COMFORTABLE DRIVE

Press the switch to deactivate the Vehicle Dynamics Control system. It may be useful to briefly deactivate the Vehicle Dynamics Control system to facilitate the following operations.

- a standing start on a steeply sloping road with a snowy, gravel-covered, or otherwise slippery surface
- extrication of the vehicle when its wheels are stuck in mud or deep snow

Do not deactivate the system except when absolutely necessary.

Vehicle Dynamics Control OFF switch

Indicator lights on the combination meter

Vehicle Dynamics Control mode

Vehicle Dynamics Control OFF mode
B Cruise control buttons (if equipped)

Cruise control enables you to maintain a constant vehicle speed without holding your foot on the accelerator pedal and it is operative when the vehicle speed is 40 km/h (25 mph) or more.

1 **Cruise control main button**: To activate and deactivate

2 **RES/SET switch**:
   - ▲RES/+ side: To increase the speed/To resume
   - ▼SET/- side: To set speed/To decrease the speed

3 **CANCEL button**: To temporarily cancel

C SI-DRIVE switches

This system consists of two or three modes: Intelligent (I), Sport (S), and Sport Sharp (S#). By operating the SI-DRIVE switches, the character of the power unit changes.

**Intelligent (I) mode**: Perform either of the following procedures.
- Press the S/I switch when the Sport (S) mode is selected.
- Press the S#/I switch when the Sport Sharp (S#) mode is selected.

**Sport (S) mode**:
Press the S/I switch when any mode other than Sport (S) mode is selected.

**Sport Sharp (S#) mode**:
Press the S#/I switch when any mode other than Sport Sharp (S#) mode is selected.

Some functions are available on certain models. ◆ For detailed operating and safety information, please refer to your Owner’s Manual.
**D Multi function display**

1. Outside temperature indicator
2. Information reminder
3. Top display
4. Clock
5. Driving information display:
   By operating ▲ or ▼ of the control switch, the screens and selection items can be switched.

**Control switch:** By operating ▲ or ▼ of the control switch, the screens and selection items can be switched. When the ENTER switch is pulled toward you, the item can be selected and set.

---

**E X mode switch**

X mode assists driving more comfortably even in slippery road conditions including uphill and downhill.

**To activate:**
Press the X mode switch. While the X mode is activated, the X mode indicator light illuminates.

**To deactivate:**
Press the X mode switch again. The X mode indicator light will turn off.

**Hill descent control function:**
Using the hill descent control function, you can operate the vehicle keeping to a consistent speed downhill.
If the vehicle speed is likely to increase, the brake control system will be activated to adjust the vehicle speed.
If the SRH OFF switch is pressed, the SRH OFF indicator is displayed on the Multi information display of the combination meter, and the steering responsive headlight system is deactivated.

**Steering Responsive Headlight (SRH) system**

SRH is a function that automatically moves the headlight beam to the left or right in accordance with the steering angle. This function helps to improve the visibility at night by illuminating the road ahead at corners and intersections.

**Memory function (driver’s seat - if equipped)**

Some of your desired seat positions can be registered. Register the seat position with button 1 or 2 or each of the access keys (if equipped) and retrieve the seat position.

**Heated Steering Wheel system (if equipped)**

The Heated Steering Wheel system warms the surface of the steering wheel at a constant temperature.
If the BSD/RCTA OFF switch is pressed, the BSD/RCTA warning indicator and BSD/RCTA OFF indicator are displayed on the Multi information display of the combination meter, and the BSD/RCTA is deactivated.

BSD/RCTA

The BSD/RCTA consists of rear radar with Blind Spot Detection, Lane Change Assist and Rear Cross Traffic Alert.

The system notifies the driver when vehicles in the blind area are approaching from behind in the neighboring lanes.
**MAIN WARNING AND INDICATOR LIGHTS**

Some warning/indicator lights illuminate for a few seconds in order to check themselves when the ignition switch is turned ON.

### Warning lights

Refer to your Owner’s Manual for countermeasures when each warning light comes on. If necessary, consult your authorized SUBARU dealer.
